

Lough Key Marina

Set in 10 acres of natural habitat the marina is surrounded by woodland, reeds and natural countryside. Under new ownership and management since early 2004 the marina has benefited from a major investment and development which has transformed it in to one of the most attractive waterway locations in the country. At all stages of the development priority was given to harmonisation with the natural surroundings.

With berthage for 80 cruisers and set in a sloping landscaped vista with natural stone walls in abundance and picnic/barbeque areas the marina has attracted a full house in a matter of months. Every facility is available to the discerning boat-owner including water-points, shore-power, parking, lift-outs, hard-storage, lifebelts, indoor paint shop & workshop, pump-out facility, slipway, picnic areas, grassland, visitor berths, toilet/shower & laundry facilities. Adjacent to the marina is The Moorings restaurant where many an evening can be passed with an enjoyable meal and beverages. Lough Key Marina is now a waterway village and its boating community participates in and enjoys the peace and tranquility of the Roscommon countryside.

We have a limited number of berths available for 2017 season. For more information on the marina, berth fees etc contact 087-9890443
